

# PCI COMPLIANCE SOLUTIONS

IF YOUR BUSINESS ACCEPTS CREDIT CARD PAYMENTS, PCI COMPLIANCE IS A MUST

## ARE YOU PCI COMPLIANT

The PCI Security Standards Council created comprehensive rules that all merchants who accept credit cards must follow.

## WHAT WOULD A DATA BREACH COST YOU?

**70%**

of breached businesses are out of business within one year of the attack

**\$80K**

is the average direct cost of a data breach

**205**

is the mean number of days between intrusion and detection

**96%**

of breached businesses were not PCI compliant

## PROTECT YOUR CUSTOMERS' DATA AND YOUR BRAND REPUTATION.

Fully implementing PCI DSS to all locations across your network reduces the risk of becoming a data breach victim.

### PCI PROTECT™

Provides financial breach protection and validates your level of PCI compliance.

- Security policy templates
- Web-based training
- Self-service ASV scans
- Self-assessment questionnaire (SAQ)
- Record-keeping for auditor reports
- Financial data breach protection—up to \$100K per location
- Available managed stateful inspection firewall with 24/7 monitoring

## PCI ASSIST™ PLUS

Hands on support to make the process of achieving and maintaining PCI compliance less overwhelming.

- Ongoing help with PCI Protect portal usage, employee training and administration of security policy
- Ongoing assistance to complete quarterly scans
- Ongoing assistance with annual SAQ
- Vulnerability remediation assistance

## PCI CERTIFY™

Expert professional services to validate and maintain PCI compliance and drive more sales.

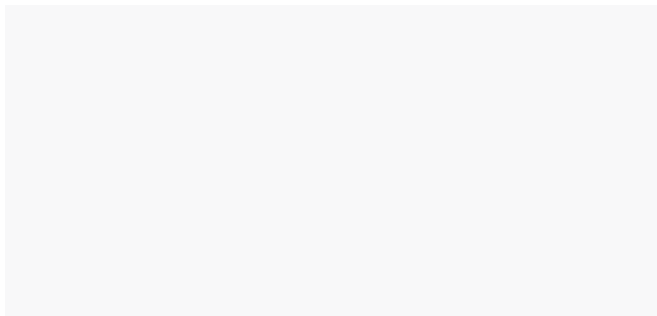

- Report on Compliance (ROC) by a Qualified Security Assessor (QSA)
- SAQ Validation

## BENEFITS

- Achieve and maintain DSS compliance
- Identify PCI gaps for remediation
- Avoid fines from credit card processors
- Financial protection from breaches
- Added security for your network
- Cloud-based management
- Ongoing support from a dedicated PCI expert
- Provides a true partnership on the path to achieving greater data security
